

PORTFOLIO  
OLIVER HOLLATZ

Oliver Hollatz was born in Dortmund in 1990, nowadays lives in Witten and works in Hagen. In 2019 he graduated from the Alanus University of Art and Society, where he taught painting until 2022.

Oliver Hollatz is known for his paintings that rest in themselves, in which attention is given to introspection, through the silent presence of space and pausing sub- and objects.

In addition to his work as a solo artist, he founded in 2019 together with Noah Kauertz the artist duo known internationally in the mural and street art scene called APHENOAH.

As an artist, I strive to create a stage for the pure existence of the depicted. My painting generates its own spatiality and allows for an introspective perception of space. In my latest work I forgo perspective lines to urge viewers to pay attention to the inconspicuous and quiet, and to give the depicted an introspective space. To me, art is a way of providing a stage for the pure existence of the depicted and preserving the qualities of slowness in a fast-paced world.
